

Dear Colleagues and SAACB members

The Laboratory Medicine Congress 2011 is drawing nearer. Our exciting program includes sessions on Inborn Errors of Metabolism, PoCT, Cardiovascular research, Epigenetic and Molecular Biology, Laboratory Management and Toxicology. We are fortunate to have international speakers who will be delivering keynote addresses on the latest developments in their fields of expertise.

Please find attached latest program and biographies of our invited speakers.

We look forward to seeing you at the congress.

Kind regards

Organising committee
SAACB
