

Dear Colleague,

On behalf of the Organising Committee I would like to invite you to attend the Laboratory Medicine Congress 2011 (formerly known as PathTech and Blood Transfusion Congress) to be held from 31 August to 4 September 2011 at the Sandton Convention Centre, Johannesburg.

Our preparations for LMC 2011 are already in progress, and we are looking forward to welcoming numerous delegates to this congress. Many of our prominent researchers and academics also look forward to our congress as it is the first not only to incorporate Pathologists, Medical Technologists, Medical Scientists, Cytologists but also National Blood Transfusion.

In the past there have been separate conferences for these groups but due to the consolidation we are expecting an event where the latest research can be presented and discussed with peers, as well as a time to meet again with old friends from other institutions and industry.

Furthermore, it is our opportunity to meet with all Laboratory Medicine - related trade exhibitors that showcase new technologies and equipment available in the market place. Past conferences have always been most successful and extremely well attended – this is only achievable by the active participation and generous support that we have always received from our loyal sponsors, exhibitors and delegates.

We look forward to welcoming you at LMC 2011 and thank you in advance for your continued support.

Yours sincerely,

Jennifer Hind

Chairperson: Organising Committee
